EDUCATION

Amrita Vishwa Vidyapeetham <i>Bachelor of Technology in Computer Science and Engineering</i>	Jul 2024 – Present Coimbatore, India
Narayana Junior College <i>Intermediate (Mathematics, Physics, Chemistry)</i>	Jun 2022 – Apr 2024 Hyderabad, India
New Vision School <i>Secondary Education</i>	Jun 2021 – Apr 2022 Khammam, India

Skills

Languages: Java, C, Python, JavaScript, HTML, CSS
Frameworks & Libraries: Node.js, Express.js, React.js
Databases: MySQL, PostgreSQL

PROJECTS

AI Wildlife Photo Analyzer with Multi-Platform Editing Suggestions - Developing an AI-based web application using Python and Flask for wildlife image analysis and editing recommendations. - Implemented computer vision techniques using OpenCV and NumPy to evaluate brightness, blur (focus), and overall image quality. - Generated automated, data-driven editing suggestions for tools like Adobe Lightroom and Snapseed (exposure, contrast, shadows, color). - Designed an interactive workflow where users upload images and receive real-time analysis results via a web interface. Tech Stack: Python, Flask, OpenCV, NumPy, HTML, CSS, JavaScript	April 2026 – Present
Stock Market Trading Web Application GitHub Live - Developed a full-stack stock trading platform enabling users to buy and sell stocks with portfolio tracking. - Implemented secure user authentication and session management using PHP and MySQL. - Designed a transaction history module to store and manage stock purchases, sales, and total investment value. - Integrated stock-related news display and implemented backend validation for stock quantity and total transaction calculations. Tech Stack: HTML, CSS, JavaScript, PHP, MySQL	Feb 2025 – Apr 2025
Uber Ride-Sharing Simulation System (Java) GitHub - Developed a Java-based ride-sharing simulation replicating user registration, driver assignment, and ride booking workflows. - Applied core OOP principles including encapsulation, abstraction, inheritance, and modular class design. - Implemented fare estimation logic and driver availability management using custom route mapping. - Built a CLI-based interface to simulate ride booking, parcel delivery, and service selection operations. Tech Stack: Core Java, OOP, Data Structures, CLI	Jan 2025 – Mar 2025

ACTIVITIES

Team Media – Multimedia Club, Amrita Vishwa Vidyapeetham <i>Executive Member Photographer & Videographer</i> - Captured and edited photographs and videos for major college events, workshops, and technical fests. - Collaborated with design and media teams to produce promotional content for social media platforms.	2024 – Present Coimbatore, India
